

The Census Bureau did not release its standard 2020 ACS 1-year Public Use Microdata Sample (PUMS) data because of the impacts of the COVID-19 pandemic on data collection. The PUMS data have been released with experimental weights and replicate weights and are available for the nation, regions, divisions, states and Public Use Microdata Areas (PUMAs). Please visit the [ACS Experimental Estimates page](#) for additional details and to be directed to the 2020 ACS 1-year PUMS with Experimental Weights. Here you can access the files as well as related technical documentation. The experimental PUMS files will not be released on data.census.gov.
